The mission of Universiti Malaya is to push the boundaries of knowledge and nurture aspiring leaders. When the Programme Educational Objectives (PEOs) of the Doctor of Philosophy programme, namely addressing multidisciplinary problems through the synthesis of relevant information and the application of scientific and social science principles, developing advanced research capabilities to produce leading researchers and/or professional practitioners, and disseminating research outcomes with high standards of ethical and professional conduct, are achieved, the programme effectively strengthens the advancement of knowledge and contributes to the generation of high-impact research in the respective fields of study.

Meanwhile, the programme learning outcomes further encourage graduates to engage in continuous self-improvement, effective communication, and lifelong learning, while contributing meaningfully to the scholarly community and society at large. In addition, the research competencies, leadership qualities, and professional values acquired through the programme prepare graduates to become future leaders in academia, research, and professional practice.

In conclusion, the programme goal, Programme Educational Objectives (PEOs), and Programme Learning Outcomes (PLOs) of the Doctor of Philosophy programme are consistent with, and supportive of, the educational goals, mission, and vision of Universiti Malaya.
